Positions & age distribution of “DOHaD Japan young investigator meeting” participants

Positions

Age

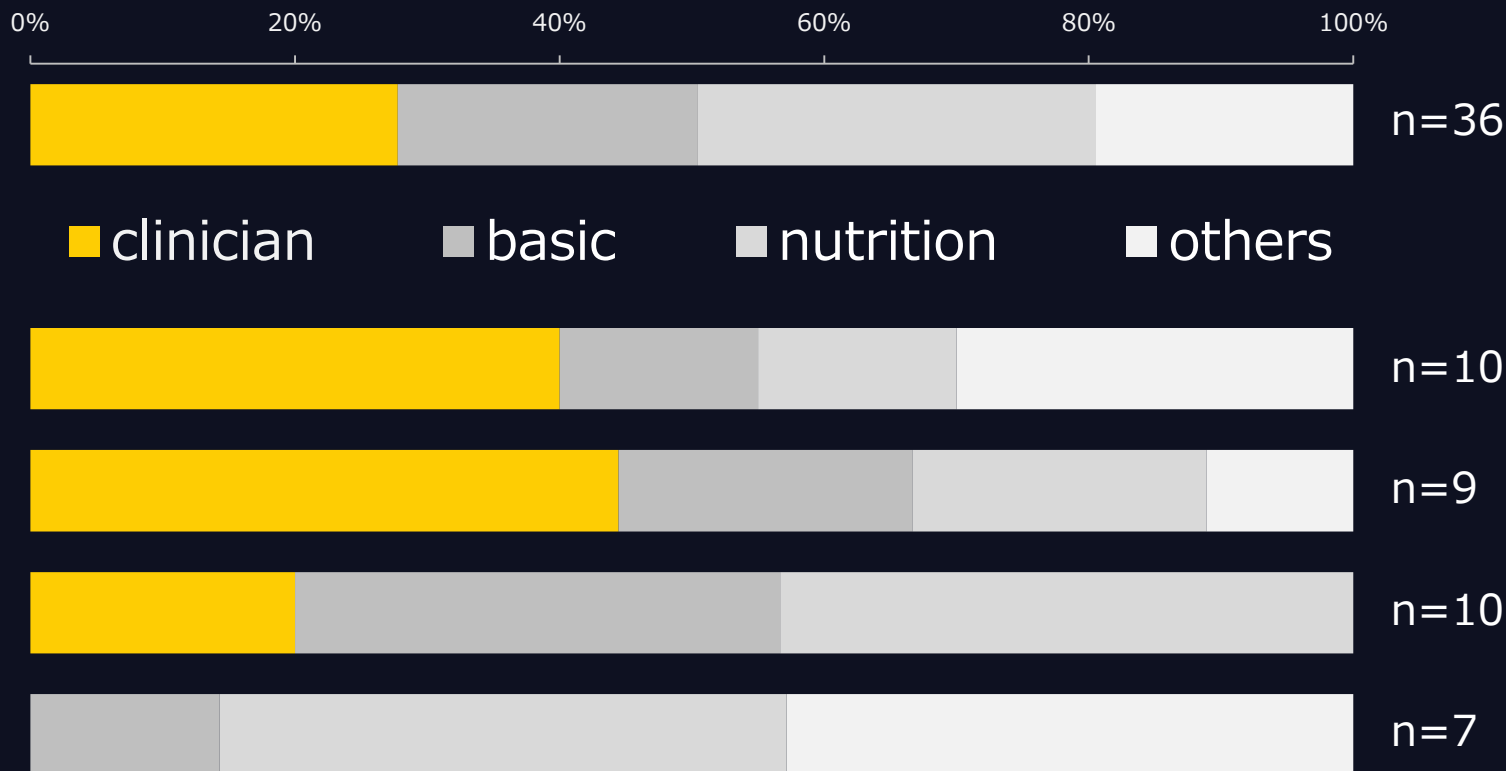

DOHaD研究
(ISSN 2187-2597)
2019年 第8巻
第1号 8頁

Less than one quarter were trainees, and less than half were age of 20s and 30s among the participants.

What is your background field? (Age distribution)

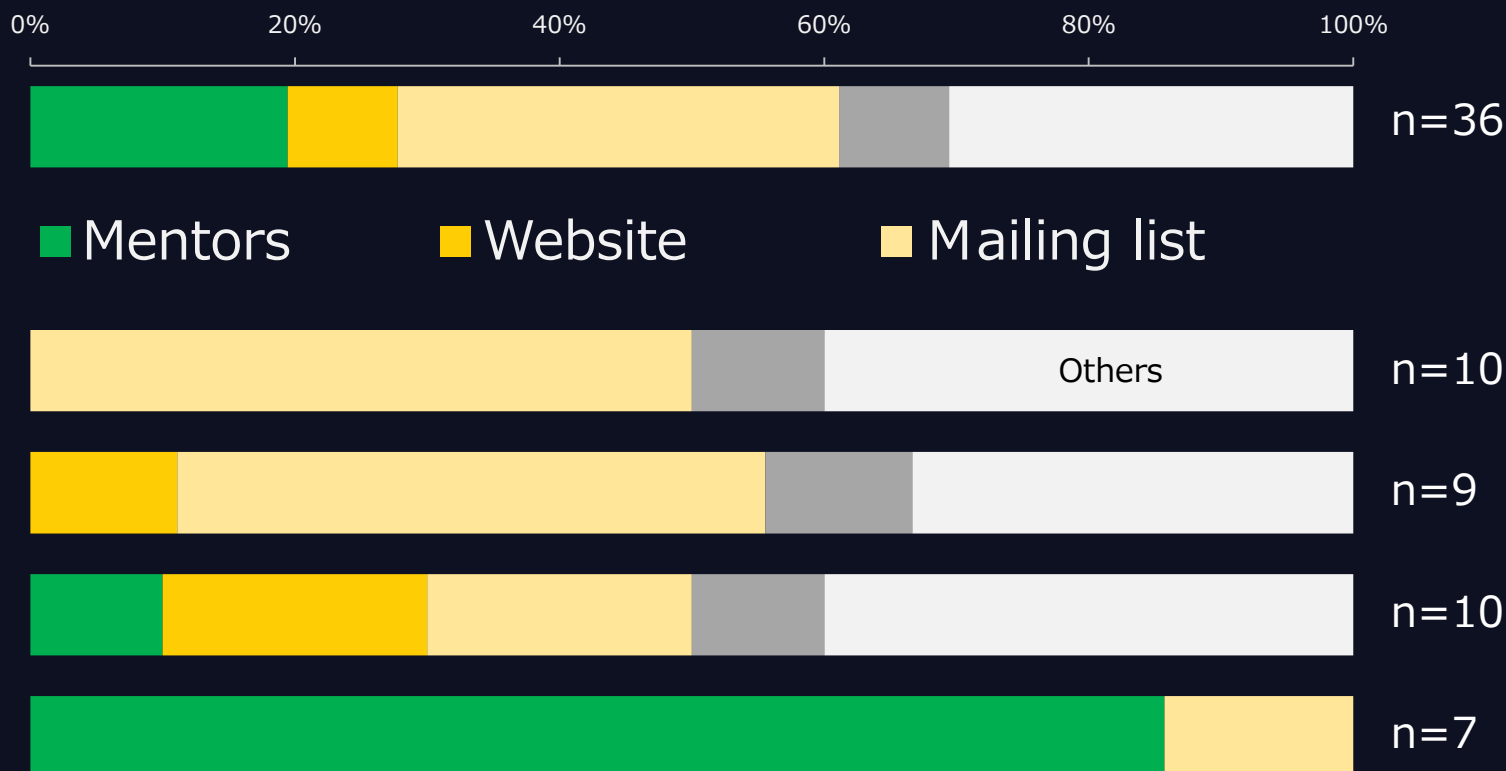

multiple choices allowed

There were not so many “Clinicians” in the 20s-30s.

How did you get to know the “DOHaD Japan young investigator association”?

DOHaD研究
(ISSN 2187-2597)
2019年 第8巻
第1号 10頁

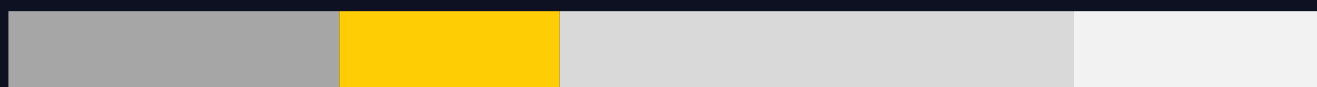

The young were brought by “mentors”,
while mid-gens referred to “online”.

Are you interested in participating to the International DOHaD meeting 2019?

The 20-30s **need financial support** for attending the International DOHaD.

Three suggestions

1. Increase DOHaD trainee members, especially postdocs, grad-students, undergrads, and young clinicians.
2. Distribute DOHaD research by mentors' recruitment and internet information delivery system.
3. Support young researchers to participate the International DOHaD meeting.
